# Travelers Cite Increasing Sense of Safety in Spite of COVID-19 Trends.

Even as the COVID-19 pandemic continues to disrupt a return to workplaces, schools and sports arenas across the country, travelers report an increasing sense of safety with most types of travel activities in the most recent MMGY Travel Safety Barometer report. While barometer scores remain depressed overall compared to what we would typically expect in "normal times," travelers seem to be adapting to the risks and safety scores continue to tick upwards.
